Subject: Camp Sagatawa Brochures

Hello all,

Gary Pryzner from Camp Sagatawa will be approaching your school as in the past, asking you to make the 2010 Brochure for Camp Sagatawa available to your students, parents, or teachers to pick up. The brochures are not to be handed out to students, rather made available to take.

In order to bring us into compliance with the direction from the MOE, this is the last year that I will be permitting this sort of distribution option in schools (same as with the Gideon Bible requests). While I have granted permission at the district level for this, it is at your complete discretion if you wish to provide permission at the school level and make these brochures available or not for pick up.

Take care,

Rob Dennis
Assistant Superintendent
School District #59 (Peace River South)

Subject: Clarification to schools

Hi Gary,
Chetwynd schools asked for clarification on the Camp Sagatawa advertising, and I commented the following.

"Camp Sagatawa had been given preferential treatment since Charlie days. To set some limits to that, a few years ago I told them that schools would no longer "actively distribute" their material, but may, at the discretion of the principal (meaning you don't have to), make the information available in the office (passively distribute).

With the new policy to be announced after the Board meeting this week, it will further limit the use of schools by outside agencies for advertizing. A couple of weeks ago I informed the Sagatawa folks that 2009/2010 would be the last year that we would make the passive distribution option available. In the future they will need to find alternate venues and strategies for soliciting support of their camps."
